

Member Quick-Start Checklist

The Brand Blueprint is your founder-facing ecosystem, Value Growth Partners is the advisory and execution engine behind it, and Growth OS turns plans into operating infrastructure. This is a first-30-days path through the hub. It is deliberately short. Work it in order and tick as you go.

Week 1 — Orient

✓	Action	Resource
■	Read the orientation end to end.	SH-01
■	Skim all nine collection READMEs — headers only, not the files.	Each collection
■	Name the one pressure you most want relieved in 90 days. Write it down.	SH-05
■	Open the collection that matches that pressure. Read only its README.	—

Week 2 — Set the rhythm

✓	Action	Resource
■	Fill in the weekly tab of the operating cadence. Pick real days and real blocks.	SH-02
■	Put the weekly review block in your calendar as a recurring hold.	SH-02
■	Map your current operating system — what only you can do today.	SH-04
■	Choose one thing from that map to stop doing personally this quarter.	SH-04

Week 3 — Work one resource properly

✓	Action	Resource
■	From your priority collection, take the first item on its recommended path.	Collection README
■	Complete it. Not skim — complete it, including the parts you want to skip.	—
■	Write the single decision it changed. If it changed none, note that too.	SH-05

Week 4 — Close the loop

✓	Action	Resource
■	Run your first monthly review using the monthly tab.	SH-02
■	Set quarterly priorities — no more than three.	SH-05
■	Identify one gap the library does not close, and route it to a partner.	Partner Network
■	Book the next quarter's reset date now.	SH-02

If you only do one thing

Do Week 2. A founder with a working cadence and no other resource will outperform a founder with every resource and no cadence.
