

Trusted Partners. Better Founder Outcomes. A Curated Ecosystem for Growth.

The Brand Blueprint ecosystem connects founder-led brands with trusted operators who can help them execute. Powered by Value Growth Partners, the partner network is designed to create warm, context-rich introductions between founders and vetted experts across creative, marketing, operations, funding, legal, finance, logistics, technology, and international expansion.

For partners, this creates qualified visibility, warmer referrals, and a more strategic way to serve founder-led brands.

HOW WE SUPPORT REFERRAL PARTNERS

- 01 CURATED FOUNDER ACCESS**
Connect with founders who already have context, needs, and a strategic reason to meet you.
- 02 WARM INTRODUCTIONS**
We make introductions with background, stage, pain point, timing, and recommended next step.
- 03 ECOSYSTEM VISIBILITY**
Partners can be featured in newsletters, Hot List updates, resource libraries, podcast content, and founder education.
- 04 QUALIFIED USE CASES**
We identify when founders need your support and where your services fit inside their larger growth path.
- 05 RECIPROCAL GROWTH**
The network creates two-way opportunities when partners refer founders back into Brand Blueprint or VGP support.

WHO THIS IS BEST FOR

- 01 FOUNDER-SERVING EXPERTS**
Operators who work with early-stage and growth-stage founders across consumer, retail, ecommerce, and services.
- 02 SPECIALIZED PROVIDERS**
Creative, legal, finance, manufacturing, 3PL, paid media, Amazon, wholesale, grants, and technology partners.
- 03 ECOSYSTEM BUILDERS**
People who value long-term trust, referrals, thought leadership, and founder outcomes over transactional selling.
- 04 PARTNERS WITH FOUNDER-FRIENDLY TERMS**
Providers willing to offer clear scope, fair pricing, discounts, or strategic packages to Brand Blueprint founders.

“ The right partner at the right moment can change the trajectory of a founder-led business. ”

REFERRAL
PARTNER

A Partner Network Built Around Founder Readiness, Not Random Referrals

Referral partners are not just listed in a directory. They are matched to founder needs, ecosystem content, education modules, and moments where their expertise can create measurable value.

NEED

Founder pain point or opportunity is identified

FIT

Partner category, expertise, price, and timing

INTRO

Warm context, founder need, recommended scope

SERVE

Partner delivers clear value and outcomes

LOOP

Feedback, referrals, visibility, future matches

PARTNER BENEFITS

1

REFERRAL VISIBILITY

Be surfaced when a founder need aligns with your expertise, geography, pricing, and service model.

2

NEWSLETTER + CONTENT PLACEMENT

Partners may be highlighted through the Weekly Signal, partner digest, founder tools, podcast topics, or education modules.

3

FOUNDER-READY CONTEXT

Introductions include stage, need, timing, and recommended scope so partners are not starting cold.

4

STRATEGIC RELATIONSHIP LAYER

Partners can also refer founders, funding opportunities, events, accelerators, and resources back into the ecosystem.

HOW THE MODEL WORKS

1

VETTED PARTICIPATION

Partners should be credible, founder-friendly, responsive, and aligned with Brand Blueprint values and quality expectations.

2

REFERRAL ECONOMICS

Referral fee terms, founder discounts, or visibility-only participation should be defined clearly before active promotion.

3

NO OVERPROMISING

Partners should provide transparent scope, pricing, timeline, and deliverables so founders understand what is included.

4

OUTCOME FEEDBACK

VGP tracks whether the connection was useful, whether the founder moved forward, and whether future matches are appropriate.

RECOMMENDED NEXT STEP

Complete the partner profile and schedule a fit conversation. We will clarify your best founder use cases, preferred referral structure, any Brand Blueprint founder discount, and whether you are a direct referral partner, content partner, expert resource, or visibility-only partner.
