**INVESTOR
PARTNER**

A Repeatable Deal Flow + Founder Readiness Engine

Investor partners do not need another generic list. They need context, readiness signals, strategic fit, and a trusted operator who understands founder quality before a first meeting occurs.

WHAT INVESTORS CAN RECEIVE

- 1 CURATED OPPORTUNITY BRIEFS**
Founder snapshots with sector, stage, traction, funding need, strategic use of capital, and readiness notes.
- 2 FOUNDER READINESS SIGNALS**
Insight into business model strength, channel strategy, founder coachability, operational gaps, and support needs.
- 3 THEMATIC PIPELINE UPDATES**
Periodic opportunities organized by consumer sector, retailer fit, funding need, traction level, or strategic theme.
- 4 PLATFORM SUPPORT PATHWAYS**
Support for portfolio companies through VGP advisory, Retail Trial, Growth OS, funding readiness, and partner network tools.

PARTNERSHIP MODEL

- 1 OPEN DOOR RELATIONSHIP**
Establish a trusted communication channel for founders that match your thesis and stage.
- 2 SELECTIVE INTRODUCTIONS**
Only introductions with reasonable fit, founder preparedness, and clear context should be forwarded.
- 3 FEEDBACK LOOP**
Investor feedback helps sharpen founder readiness, sector prioritization, and future pipeline quality.
- 4 NO GENERIC BLASTS**
The objective is targeted access, not mass distribution. Every opportunity should have a clear reason for being shared.

RECOMMENDED NEXT STEP

Schedule a 20-30 minute conversation to align on your investment thesis, stage focus, sectors of interest, geographic priorities, and preferred founder readiness criteria. From there, VGP can curate a periodic opportunity flow that is useful rather than noisy.
